# TEAM BASE CAMP

# A Revolutionary Approach for AFCON 2025

- CAF& LOC introduces the **Team Base Camp (TBC) model** for the Final Tournament in Morocco, marking a transformative moment in the competition's history.
- Each team is assigned a dedicated base with high-standard facilities for the entire tournament.
- Teams will stay in 5-star or higher hotels paired with exclusive, world-class training facilities.
- The TBC model provides teams with a consistent, distraction-free environment to recover, prepare, and excel.
- Eliminates the hassle of relocating after every stage, allowing teams to focus on their matches without logistical stress.
- CAF & LOC innovative approach aims to redefine the tournament experience for teams, players, and staff.

# A Revolutionary Approach for AFCON 2025

## What is a Team Base Camp?

- A dedicated, high-standard base for each team throughout the tournament.
- Includes a 5-star or higher hotel paired with an exclusive, world-class training site.
- Offers teams a consistent, familiar environment for recovery, preparation, and focus.
- **Benefits of the Team Base Camp Model:**
- **Stability & Comfort:** This edition, the teams will have the convenience of staying in one location for the entire duration of the Tournament.
- No more packing and relocating after each stage, allowing everyone to focus on their performance without the added stress of frequent moves.
- **Top-Quality Facilities:** Training sites feature floodlights, gyms, recovery zones, and peaceful surroundings.

# Optimized Travel & Transportation

- **Seamless Travel Across Morocco**
- The LOC will guarantee an efficient and reliable transportation system to connect all host cities:
- **Trains:** Modern, high-speed trains connect key cities such as Rabat, Casablanca, Tangier and Fes.
- Example: *The high-speed train (Al Boraq) travels from Rabat to Tangier in 1 hours 10 minutes and Tangier to Casablanca in approximately 2 hours 10 minutes.*
- **Buses:** Comfortable, air-conditioned buses for short distances.
- **Flights:** Quick domestic flights between cities for longer distances with the numerous available airports in the most of the host cities.

## Distances Between Host Cities:

- LOC guarantees smooth coordination of all travel schedules to minimize disruption and maximize team convenience.
- **Flights duration: maximum 1h30 between cities**
- Reduces travel time and logistical headaches.
- LOC representatives will accompany teams to ensure no delays or complications

# A Revolutionary Approach for AFCON 2025

## TBC Model Advantages:

- **Consistency:** Teams stay at their dedicated base camp for the entire tournament. This minimizes disruptions, allowing players and staff to establish a comfortable routine and maintain focus.
- **Exclusivity:** These facilities are reserved exclusively for your team, ensuring no interruptions, scheduling conflicts, or sharing of resources with other teams. This exclusive access helps optimize preparation, giving players the best environment to fine-tune their performance.
- **Convenience:** Only travel required is for matches and return to base camp is streamlined
- After the game, seamless travel arrangements are in place to return to the base camp. This eliminates the fatigue and logistical challenges often associated with constant relocation.

# Transfert Hotels

# A Revolutionary Approach for AFCON 2025

## Transfer Hotels for Matches:

- Teams will travel to transfer hotels in the match venue city one day before their game. These transfer hotels are strategically selected to ensure proximity to the stadium, providing convenience and minimizing travel time.
- The transfer hotel concept ensures teams maintain access to high-standard accommodations and essential services while on the road, mirroring the quality of their Team Base Camps.
- CAF & LOC will oversee all travel and coordination to guarantee smooth transitions between base camps, transfer hotels, and match venues.
- There will be a dedicated training site available exclusively to the team in the city where the match will take place.
- After the match, teams have the option to either:
  - Travel back to their Team Base Camp on the same night, or **Depart early the next morning at the latest by 12 PM.**

07

# ACCOMMODATION RULES

# ACCOMMODATION RULES

## Team's accomodation

The following accommodation will be provided for each team participating in the Competition :

- **in a hotel of at least a 4-star category, equipped with the following minimum facilities:**
  - 12 double rooms with two beds for the team players
  - 16 standard rooms for officials and other team members
  - 1 suite for the head of the delegation
- **Please note that any requests for additional hotels' rooms, meeting rooms and any other hotel facility that was not covered by the LOC shall be covered by the federation of the participating team. The participating teams are requested to communicate ONLY to the LOC any requests for additional rooms / facilities.**
